SEVEN FORMER GERMAN VESSELS ARE TURNED OVER TO THE BRITISH

Seven Giant Liners Will Be Given to England as Formerly Arranged.

WILSON ISSUES ORDER

Action In Accord With Terms Of Armistice.

(By Associated Press.)

Washington, December 26.—By direction of the President, the former German passenger ships of the Imperator group, now in New York harbor, are to be delivered to Great Britain, the Shipping Board announced today.

The vessels are those assigned to the United States after the armistice for repatriation of American troops and designated by the Inter Allied Naval Council to be turned over to Great Britain under the armistice terms.

The Imperator has already been delivered to the British. Delivery of the seven ships to Great Britain was delayed, as the Shipping Board wished to obtain the use of the American owned oil tankers formerly under the German flag.

A proposal was made by Chairman Payne of the Shipping Board that each country be permitted to use the vessels desired, pending a final determination of their ownership. No action has been taken so far on this proposal, and the transfer of the former German ships to Great Britain is made without any explanation other than that it was done by decision of the President.

EXPLAINS ACTION

The President's action, the State Department says, followed a report from Great Britain that the ships be surrendered under the original allocation of the inter-allied shipping board which arranged to get the vessels out of German harbors following the armistice.

On investigation it was said the United States had no right to retain the ships beyond the period of their service in bringing back American troops and so reported to President Wilson.

While President Wilson's order puts an end to the controversy, of German ships, the status of 12 standard oil tank steamers formerly under the German flag, but now under British jurisdiction, remains in doubt.

PROHIBITION SURELY CHANGES SCENERY; FORMER SALOON'S DOLL HOSPITAL NOW

"Old timers" stop quite frequently nowadays to stare at the changes which have come over landmarks since John Barleycorn's death was decreed. This photo, taken in New York, shows how times have changed. The room shown was once a famous saloon. Now it has been transformed into a doll hospital. The "Pale Beer" signs are still above the door—partly hidden by the new signs.

98 PER CENT. OF RAILWAY MECHANICS FOR A STRIKE

Voted to Strike if Congress Enacted The Cummins Bill

VOTE TAKEN IN NOVEMBER

Did Not Want to Appear As "Threatening Congress."

(By Associated Press.)

Washington, December 26.—Ninety-eight percent of the 125,000 union railway machinists voted in November to strike with other trades in the event Congress enacted the Cummins railroad bill with its anti-strike provisions.

In making this announcement today President Johnson of the International Association of Machinists said the vote was taken before the Senate Inter-State Commerce Committee reported out the Cummins measure and the result was not officially published because the association did not want to appear in the attitude of threatening Congress.

The machinist membership is around half a million, but not more than 125,000 of this number are employed on railroads.

TERMS TO BE IN FORCE WITHOUT RATIFICATION OF TREATY BY AMERICA

Allied Reply to Latest German Note Agrees With German Views.

WILL NOT REFER TO U. S.

United States Must Ratify The Treaty Before Protocol Is Signed if She is Included

(By Associated Press.)

Berlin, December 26.—The Allied reply to the latest German note regarding the peace treaty protocol was published here today. The first paragraph of the reply expresses satisfaction that the German government shares the point of view of the Allies; that the dispositions of the treaty of peace is applicable from the moment of the treaty's entry into force, whether ratification by the United States has or has not occurred.

The Allies take note that Germany admits in principle that no contracting party can refer to the participation of the United States in the first deposit of ratification document as a ground for questioning any stipulation of the treaty.

The third paragraph of the note expresses the determination of the allies to insist upon demanding the signing of the protocol with the provision regarding compensation for sinking of the German warships unchanged.

The fourth paragraph denies with the willingness of the allies to reduce the demand if it is proved the demand vitally endangers Germany.

GUESTS APPEAR FOR WEDDING GROOM MISSING

Prominent New York Surgeon Fails to Appear At Hour Of Wedding

Radicals Suspected of Making Away With Him

(By Associated Press.)

Monson, Mass., December 26.—Dr. William Grey Vermilye, of New York, a former naval surgeon, failed to appear for his wedding with Miss Ruth M. Keeney, of this town, yesterday, and to day his absence was still unexplained.

Miss Keeney, who resigned as professor of Spanish at Bucknell University to marry Dr. Vermilye was reported ill at the home of her parents.

Guests at the expected wedding, who crowded the Methodist church, were dismissed with the word that Dr. Vermilye had not been heard from since he left a New York hotel, supposedly on the way to be married.

A supposition is put forth by friends of Dr. Vermilye that his disappearance might be explained by the fact that radicals, in whose prosecution he had been aiding, had spirited him away.

CHRISTMAS WAS GREATEST EVER

Citizens in general experienced what is generally conceded to have been the best Christmas in their lives, the day being fully observed as a holiday and there was an abundance of good cheer, while joy reigned supreme generally.

The weather was almost ideal for Christmas day, enough snow being upon the ground to prevent it being what is usually termed a "green" Christmas, and the temperature being all that one could wish, while the bright sunshine added the finishing touches.

And many a home which otherwise would have been devoid of Christmas cheer, was made bright by the generous thoughtfulness of individuals and organizations who, in their own enjoyment found increased pleasure in making the day happy for others who were less fortunate.

The day drew to a close with one of the most gorgeous sunsets ever witnessed, a great field of scattered, fleecy clouds stretched across the sky with soft tinted heavens for the background, forming a picture of great beauty as the dying rays of the sun caught them with magic brush and spread with lavish hand old rose, purple, orange, copper and kindred colors upon their soft folds, putting to shame the most ambitious efforts of the greatest painter in the world—a fitting close to a day of great joy.

RETURN OF ROADS BRINGS UP OLD WAGE PROBLEM

(By Associated Press)
Washington, December 26. — President Wilson's proclamation returning the railroads to private control March 1 lends a new aspect to wage problems now before Director General Hines.

In the opinion of railroad administration officials the president's order, made public last night, should tranquilize the labor situation, inasmuch as the time of government control is extended by two full months. Union officers who have been pressing for a settlement of their demands before the roads went back, on the supposition that the transfer would be made on January 1, the date originally set, have not indicated how the proclamation will affect their plans.

DEATHS BY FIRE IN OHIO REACH 250

(By Associated Press)

Columbus, Ohio, Dec. 22.—More than 250 persons burned to death and more than 400 injured was the human toll from fires in Ohio in 1919, according to records of Wm. J. Leonard, state fire marshal.

Seventy-four of the fatalities were children and 19 were aged persons. Most of the child deaths resulted when the children, clad in nightgowns, sought to warm themselves before an open fire just before going to bed or just after getting up in the morning.

The four main causes of home tragedies were open fires, gasoline, kerosene and oils, bon fires and playing with fire or matches. The causes ranged, however, from suicide, murder and the "going bad" of an airplane engine in mid air, to play with matches. In more than 95 percent of the casualties, the element of carelessness entered, said Leonard.

What Happens when the Oil Freezes in Your Motor?

YOU KNOW WHAT WOULD HAPPEN IF

The oil might freeze in your motor and still you would be able to start and get along your way, but sooner or later it would make itself known.

That means simply this: It being possible for the oil to be frozen in your motor without you knowing it, it is far better to use oil that does not freeze at low temperature.

NO DECISION IN TWO-HOUR BOUT AT THE ARMORY

After two hours of strenuous wrestling the bout at the Armory Thursday evening between Nels Anderson, 153 pound Swede hailing from Wisconsin and Matt Matsuda, 147 wrestler of Columbus, was declared a draw and both men departed from the ring with honors even, and dividing the door receipts fifty-fifty.

While Matsuda did not show the form that he has been able to boast on former occasions he had his hands full with the tawny haired wrestler, who displayed an exceptionally active pair of wrestling legs, plenty of wind and good headwork. During the first hour the men worked hard but towards the finish the many minutes of great exertion told on them and it was seen that the bout would be a draw.

Matty worked the toe hold almost incessantly as this had seemed to be his opponents weak spot. Anderson came in the ring with a new pair of shoes which were ruled out by the referee because of the thickness of their soles.

Anderson seemed to rely on his legs and made a most creditable showing. He was a very wiry, thin athlete, but possesses remarkable endurance.

He is a mechanic in the Nash Motor Car factory.

At the end of two hours the match was called under the Police Gazette rules by referee Bill Palmer and the match was called a draw. The men will be matched for another bout within a short time.

For the preliminary, "Spaghetti" Pappas, Greek wrestler of Toledo, agreed to throw Jimmy Whitehead and Clyde Hinton, of Columbus up 30 minutes. Pappas was many pounds heavier than Whitehead but did not succeed in putting the little man down until 18 minutes had passed. He used a toe hold for the result.

Hinton made a good showing during the remainder of the 30 minutes and was never in danger at any time. Hinton challenges all lightweight wrestlers in the city. The match was refereed by Irvin Bell.

A record breaking crowd saw the matches.

500 KIDDIES GIVEN CHRISTMAS TREAT BY CHAS. JOHNSON

More than five hundred kiddies were made happy Christmas day by Charles B. Johnson when he threw open his two movie theatres, the Wonderland and the Colonial, to the little folks for the afternoon performance. At the Wonderland Douglas Fairbanks delighted with his ever amusing feats of strength and his daredeviltry in "Arizona". At the Colonial Mary Pickford was just plain Johanna in "Johanna Enlists". Both plays were the kind that appeal to the youngsters and the playhouses resounded with cheers for the favorite screen stars.

They were all there. Little fellows with smudgy faces and tattered cloths and toes that wouldn't keep still because of the cold and holding their sisters by the hand so as not to get lost in the crowd that surged around the doors, with here and there a youngster who showed by his appearance that he was just there because he was a real kid and wanted to be in with the rest of them.

Some were there whom Santa had not been able to find because there wasn't any number on the house, or for various causes, but they were all happy, that was certain.

Although "Charlie", in the role of Santa, didn't wear red flannels or store whiskers he was the old saint just the same to the kiddies who went home and told their parents of the big man who let them in—and they didn't have to pay anything at all!

Presumably a desire for music in the Home is the reason for your purchasing a phonograph. It follows, then, that you want tone. You can have music without having the best tone, but you can't have tone without having the best of music.

The Starr Phonograph

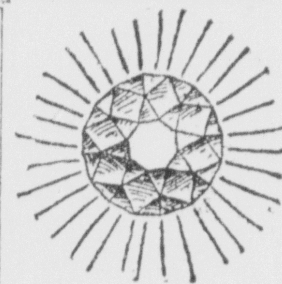

The singing throat, through a strict observance of the true principles of tone building reproduces the tone of the artist exact, with every degree of shading, every depth of coloring, every variation of expression upon which depends your enjoyment of music.

A demonstration of these features of the STARR will more than interest you and an informal program of musical selections will convince you.

The Old Council

The personnel of the Washington city council will change on January first. The last meeting of the city council, as at present made up, was held last Monday night. It is not likely unless some extraordinary necessity arises making a call meeting advisable, that the present council will again convene.

The retiring council ceases to exist leaving behind a record decidedly out of the ordinary for Washington councils or councils of any city of this size. It has been, taken all in all, a remarkably smooth working legislative body and has accomplished a great deal of real good for the city. It has been a public spirited body in the main, appreciative of the needs of the community and with the courage to go ahead.

The old council has a unique record, too, in that all of its actions were backed by unanimous opinion and votes. That in and of itself, however, is not proof positive of the very best service. It is, however, proof of the absence of that disturbing discord which reduces the power of so many city councils to a minimum.

Really the old council was "going well" when the voters, in their wisdom, decided to make some changes in the personnel.

The city under the regime of the council which is just passing out of official existence, has made remarkable progress and the last meeting, at which provision was made for paving Water Street and Dayton Avenue was in keeping with the progressive spirit which has so distinguished the legislative body.

There have been some few matters of minor consequence, chiefly matters of procedure, about which we have felt called upon to disagree with council, but on the whole record made there is no hesitancy in extending to council our congratulations and appreciation of a public work well done.

The people appreciate the work of the old council. It has left a record which following councils may follow to advantage.

Not Too Fast

There is, perhaps, more opposition to the proposal that this nation accept, under the peace treaty and league of nations pact, a mandate for one or more of the weaker nations in the Far East, than to any other one of the many proposals made.

It is not strange that Americans should not be enthusiastic about becoming involved in the turmoil of the Far East. There is much to be said, from the standpoint of humanity's claim upon our strength, but the move, if taken, means assuming a tremendous responsibility. It is a revolutionary move—an act which is in direct opposition to all our cherished creed which has proven the bulwark of our strength—it is far more serious in its possible consequences than any traditionally objectionable European alliance.

From the standpoint of unselfish devotion to right, as an act in furtherance of our determination to see justice done to the weak, there is everything to be said in favor of such action, but to accept a mandate in the Far East is a leap into the unknown and into an unknown which has always been avoided by Americans. The risks are certain and the benefits to those we would help are doubtful.

In our impetuous generosity and desire to be a protector to the weak we must not permit ourselves to be carried off our feet and do only harm to our own nation.

A Valued Opinion

Since he assumed the duties of Attorney General of the United States Mr. Palmer has been accorded more attention by the public, even than was given him as the official who ferreted out the property holdings of aliens, reduced those holdings to money and invested it in liberty bonds to finance this nation in war work.

Mr. Palmer's judgment on the effect of the great governmental activities, many of which he has, in a measure, directed, in most of which he has participated, is entitled to be accorded serious consideration.

His prediction, therefore, that the cost of living is already "under control" should bring encouragement to those who have been hoping for a drop in prices, especially on necessities.

His appeal to the people generally for concerted action against profiteers and hoarders of foodstuffs and necessities of life should be heeded.

The Attorney General has, thus far, in his long and exceedingly important public service, demonstrated that he generally knows whereof he speaks and generally produces the results sought.

POETRY FOR TODAY

THE TEMPLE OF SILENCE
came by the thicket and under the
poplars,
Beneath stolid oaks, where the vio-
lets grew,
And awaited expectantly some sign
of greeting
From towering old comrades whose
friendship I knew.

Above at bared arms I cast timidest
glances,
Where dark frowning trunks reared
their heads in the sky,
I watched for a nod and a smile,
though quite vainly;
They trembled, I fancied, as winds
whistled by.

The leaves made a carpet I dreaded
to tread on,
For these were the eyes and the
ears I had known,
And lips that had whispered a glad
note of welcome
In bright summer days ere the north
blasts had blown.

The oak trees were saddened, the
aspens were somber;
They answered me not, nor the
larch or the pine.
They stood in their glory and silently
suffered,
Quite heedless and muted, these
idols of mine.

SLEEP VANISHED WHEN HER NERVES WENT TO PIECES

But Repose and Other Blessings Came Back at Nerv-Worth's Bidding.

And they come quickly—with the use of less than a bottle of Nerv-Worth. Here's the story, with the teller's name and address:

Nerv-Worth Co.—My nerves have been in a terrible condition. Could not do the smallest household duties nor sit down long enough to read the headlines of a paper. Sleepless and restless nights added greatly to my run-down condition.

I saw an advertisement for Nerv-Worth and I tried it. I began to feel relief before taking one bottle. I have told many others what it has done for me and I certainly could not be without it in the house.

A DAY'S CLEAN-UP AT THE "LITTLE BUTTER-AND-EGG" GOLD MINE

AN OLD SOLDIER TRIED HYPO-COD SAYS IT'S FINE

Blood was thin, felt weak, appetite poor and gas formed on stomach.

FEELS LIKE YOUNG MAN NOW

Ed Studer, out at the National Military Home, Dayton, says Earle's Hypo-Cod made him feel like a boy. Said druggist told the truth alright when he said this tonic was the best one made. Read what he said below. "My blood was thin. I felt weak and out of fix every way. My appetite was poor and gas formed in my stomach after meals. I had heartburn after eating. I felt so bad I had to quit work for awhile as a barber out at the home. The druggists told me Earle's Hypo-Cod was the right thing for me to take and as a result I'm feeling as good as I did when a boy at twenty-five. I'm working again now and after my work is done, I pull out my fiddle and play away and enjoy things like a kid. My stomach is in splendid shape. Its as good a tonic as any one can get and I'm recommending it to everybody," declared Ed Studer, who for six years has been a barber at the National Military Home, Dayton.

Have you been reading the articles appearing almost daily in this paper telling of what others say about this splendid tonic. Watch for them. They are all from people in this vicinity. Easily verified. If you are not feeling as well as you should, and need a good tonic go down to the drug store tonight and secure a bottle of Earle's Hypo-Cod which has been endorsed by thousands, doctors, druggists, nurses, chemists and professor say that it is ideal.

Earle's Hypo-Cod is sold here by C. S. Haver's and Frank Christopher's drug stores and the leading druggists in all nearby towns. Price \$1.25 plus 5c war tax.—Advt.

CHRISTMAS TRADE SETS NEW RECORD FOR GREAT VOLUME

Washington merchants are now concluding by far the greatest Christmas trade ever experienced, and the volume of business is roughly estimated at fully twenty percent greater than that of last year, when all previous shopping records were shattered.

Because of the lines of Christmas goods carried in this city and the fact that merchants did not hesitate to let the public know of the fact, proved a great magnet which drew thousands of persons into the city from the great rich agricultural region surrounding the city for a distance of twenty or thirty miles.

A noticeable feature of the shopping this year was the fact that never before has so great a volume of business come from the rural districts, the farmers expending a great deal more for Christmas good than during any

previous Christmas.

Shopping really started earlier than ever before and, regardless of many days that were not favorable to shopping, has continued in almost unbroken volume. Fully ninety-five per cent of money expended was paid out for practical and useful gifts.

U. S. MAY SELL 103 HUN VESSELS

Washington, December 26. — The shipping board has under considera-

tion the sale of all former German passenger ships with the stipulation that the vessels be run under the American flag. It was announced last night.

The vessels, which were taken over by the government during the war, total 103, aggregating approximately 250,000 deadweight tons. No price has been fixed for the ships, but \$250 a ton is suggested as a probable valuation by high officials.

Nothing restores Strength and Vitality as quickly as Vinol, our Cod Liver and Iron Tonic.

Mrs. Moore Proved This:

Warsaw, Ind.—"Influenza left me terribly weak and anemic and with no appetite. I could not even walk around the house without being all exhausted, and as I am a housewife I had to have help. I tried tonics and doctors without benefit. I read up on Vinol, and four bottles built me up and restored my strength, and I have several friends who were benefited in the same way by its use." —MRS. TO OUR PEA GROWERS

We are ready to contract for the growing of peas for 1920. We will pay \$60.00 per ton for peas, there being no change in the price over last year. We are compelled to begin contracting a little earlier this season, owing to the fact that our acreage will be considerably increased over last season. This will necessitate more equipment that we may be able to handle the crop quickly, thus saving time and expense to the farmer as well as ourselves.

Our Mr. Harry Hyer, field and soil inspector, is now looking after contracts for Peas for the coming year and he will gladly go into the matter fully on the subject of the growing of peas. It is not necessary to explain the value of growing peas as it is generally understood that it is a profitable crop yielding as much as \$125.00 per acre; maturing within 60 days after seeding, allowing the grower to put on a second crop of sweet corn, field corn or Lima beans.

It being a leguminous plant, gathering nitrogen from the air as is done by clover, alfalfa and other plants, a pea crop leaves the soil richer in nitrogen than before it was grown, as you know nitrogen is the most important and most costly of all essential soil elements. Remember this one fact, the growing of peas is the only practical way of securing a stand of alfalfa or clover because it is a nurture crop. We refer you to a few of our growers of peas who will gladly explain their past success:

We shall begin inoculating our seed at our plant about January 1st, to insure a production of little nodules on the plants. Our Mr. Harry Hyer will gladly assist you in securing samples of your soil and if you desire, we will test this soil, advising you of any deficiency, and how to remedy same. We will be glad to furnish lime product at cost, which will be \$3.25 per ton.

Christmas greens, and bells, and a potted plant lent a Yuletide appearance to the home.

Mr. and Mrs. B. W. Wiggington hospitably entertained at a family dinner at their country home on the Prairie pike, Christmas, Mr. and Mrs. F. W. Skinner daughters, Misses Louise Agatha and Marjorie of Greenfield, Mr. and Mrs. C. F. Jones, of Columbus, Mrs. P. P. Wiggington, daughter, Adelaide Messrs. Harry and George Pickering.

Two prominent families of the Jeffersonville community were united in marriage Christmas afternoon at half past two o'clock, when Miss Louise Ervin, the attractive daughter of Mr. and Mrs. A. F. Ervin became the bride of Mr. Ellsworth Vannorsdall, son of Mr. and Mrs. Ernest Vannorsdall, Rev. Mitchell of Jeffersonville, performing the double ring ceremony. It was a very pretty wedding without of much simplicity, with the home of the bride on the Prairie pike, aglow with the bright colors and decorations of the Christmas season. Sixty guests witnessed the ceremony, performed in the large library, where scarlet carnations and Christmas greens were tastefully used in decoration.

The bride, who is quite young, graduating from the Jeffersonville High School only last June, looked exceedingly pretty in a graceful gown of white crepe de chine and carried a lovely bouquet of pink roses. Her going away gown was of blue serge, smartly tailored in simple, straight lines, trimmed in black braid, worn with brown coat, hat and shoes of brown.

The attendants were Miss Doris McCoy and Mr. Mandel Smith and James Westhafer, of Wooster, a running little cousin of the bride, assumed the role of ring bearer. He was dressed in white and bore the ring in a silver basket.

Miss McCoy was beautiful in a gown of grey georgette, embroidered in pink; her bouquet of carnations.

A wedding dinner followed the ceremony. The bridal table was lovely, with center water garden of yellow and white narcissi and broad ribbons of yellow and white garlanded from the chandelier to the corners. The yellow and place cards and menu.

CHURCHES' XMAS

One of the most striking and best rendered programs ever given on Christmas eve at the Grace M. E. Church was the one given Thursday evening. Under the direction of Misses Lizzie Ellen Green, Mina French, Mary Craig and Dora Mae Stewart, and Messrs. Herman Frey and Harold Hays, a program had been worked out that was full of the Christmas spirit.

At ten door an abundant amount of groceries, candies and fruits were deposited and went to make up dozens of baskets which were distributed to the poor of the city. A liberal silver offering was also received.

In harmony with the occasion the church had been decorated and the platform and pulpit were a mass of evergreen.

The program opened with a song by the primary grades, Miss Lizzie Ellen Green at the piano.

Then came a wonderful interpre-

tation of "The First Noel". A perfectly balanced cast with the parts splendidly given, the scenes were most impressive. Miss Wanda Mae Morris and Rev. Alexander were in the leading parts and were ably supported by the others.

A spot light operated from the balcony, was used with wonderful effect in some of the scenes. The depiction of the shepherds in their start to Bethlehem after seeing the star was almost true to life.

During the intervals between the scenes a double quartet, stationed in the dome of the church sang Christmas songs.

The final scene and the one which pictured the angels singing their songs of triumph after the birth of the Son, was given by a group of young girls. With their costumes brought out clearly against a background of evergreen the picture and thought was rarely beautiful.

Some little nervousness was caused to the youngsters by Superintendent Fred M. Mark when he explained that because of good reasons Old Santa would not be able to present. The tears were set aside by the announcement that he had left the supplies and everything was ready to be given out. A box of Christmas candy and an orange was given to each person.

One of the largest crowds of the occasion had assembled for the program and both the auditorium and the balcony of the church were filled.

The various Sunday schools of the city vied with each other in providing attractive Christmas entertainments for their scholars, several of them being held on Christmas eve.

At the Presbyterian church Santa Claus came generously, bringing not only his usual Christmas treat, but stopping to visit awhile with the tots, who crowded eagerly around and

VAN WERT PAYS BIG GAS RATE

Columbus, O., December 26. — Van Wert residents will have to pay a high rate for artificial gas they consume. It was fixed Wednesday by the public utilities commission \$1.85 per 1000 cubic feet and is based on valuation of property of the gas company and estimate of increased operating expenses. City council in Van Wert fixed the rate at \$1.40, but the gas company appealed.

The rate for gas fixed for Van Wert causes many older citizens here to recall that Washington's first gas was made from crude oil and was sold at \$10.00 per thousand cubic feet. Just before natural gas was turned into local mains artificial gas, made from coal, was furnished consumers at 95 cents per thousand cubic feet for cooking purposes and at \$1.00 per thousand cubic feet for lighting purposes.

ISSUE CALL FOR WARM CLOTHES

Conditions of some of the pupils in some of the grades of the city schools have necessitated a call by the Red Cross for clothing. Some children have been attending school who will not be able to start in on the second semester unless their need for warm clothing is supplied.

Miss Mary Robinson, of the local Red Cross chapter, states that many calls come into headquarters for underwear, warm dresses and coats. Hundreds of people have clothing in their homes, stored away, that they will never wear and the appeal is issued to get out this surplus and send it to the Red Cross rooms on the corner of Market and Main streets.

Any donations will be appreciated by the committee.

found him as jolly an old fellow as story books pictured.

contributed largely to the success of the program in transforming the pulpit platform into a winter scene of great beauty, snow glistening, the little white picket fence in the foreground hung with garlands; evergreens and huge bunches of scarlet poinsettias in effective arrangement, and at one side of the imitation yard a splendidly decorated Christmas tree. A large number of Christmas baskets and other charities were distributed through the Sunday school.

McNair Memorial Church.

Christmas greenery was used in artistic arrangement to decorate the McNair Memorial church Christmas eve for the regular Sunday school entertainment.

Christmas trees graced either of the Newel posts, and the smaller children of the school presented a delightful program of songs and recitations to a very appreciative audience.

There were three special exercises; Christmas Candles, Christmas Secrets by the very small children of the Primary department, and a very effective drill, Angels and Shepherds, given by the older girls and boys.

A Christmas offering was taken for the famine stricken lands in the Orient.

Miss Pauline Denny very ably managed the program, assisted by Miss Edith Barnes, at the piano.

Wonderfully beautiful and inspiring were the Christmas services at St. Colmans and for the three masses, at 5:30, at 8:00 and 9:30 the church was crowded to the doors.

The three altars, ablaze with electric candles, were superbly decorated with pink and white chrysanthemums, carnations, narcissi and greenery.

Rev. Fr. Fogarty officiated at all three masses, delivering excellent Christmas sermons. The music was beautiful, furnished by a mixed choir, under Director Thomas Cullen, Miss Margaret Clark organist.

Introducing the 5:30 mass Miss Olive Hillery sang "Holy Night." The mass was sung in unison with two solos by Miss Lizzie Smith and Aloysius McDonald.

The services of the day closed after the late mass with the Benediction, Blessed Sacrament and singing of the hymn "God of Might" by the congregation.

Aloysius McDonald sang one of the

communion hymns and again at the concluding mass following the singing by the entire choir of a hymn to the Infant Jesus in the Crib at the communion.

Rev. Harry Hadley, rector of St. James Episcopal church of Zanesville, administered the Holy Communion at St. Andrew's Episcopal church Christmas morning.

It was a beautiful Christmas service, conducted with much impressiveness. Christmas hymns were added to the hymns of the communion service.

The white altar hangings were used and poinsettias and greenery effectively used in decoration.

BURGLARS GET MUCH ALCOHOL IN LOCAL STORE

A burglary decidedly out of ordinary occurred Christmas night at the J. W. Duffee & Company grocery where a quantity of alcohol used in preparation of certain medicines of the Duffee company had been placed for safety, and which was stolen by the burglars.

At the same time the burglars obtained between 400 and 500 cigars and six or eight pounds of Star tobacco. The money drawer had been opened, but no money had been left in the cash register.

How the men entered the place is somewhat of a mystery, theories differing, as no doors or windows had been jimmied, and no locks forced. Evidently it was someone who knew the arrangement of the store thoroughly, and who had been in the store before and obtained small quantities of the alcohol.

About \$100 worth of the alcohol was taken, being contained in a keg.

That there was a "leak" in the alcohol supply was discovered and on Sunday the alcohol was weighed and arrangements made to ascertain the truth of the suspected leak. However the man or men who had been entering the place with out the knowledge of Mr. Duffee evidently had decided that he would take the entire supply and did so.

There was some evidence that entrance had been through an upstairs window, although it was the opinion of some that the burglars had entered by way of the front door.

Officials are confident that speedy arrest of the guilty parties will be made.

It is harmless, but it is mightily efficient. Your druggists or your grocer can supply you, and you should prepare yourself without delay by keeping a bottle of this reliable remedy in your home.

NEEDY GET MANY FILLED BASKETS

A report from the Red Cross shows that 110 Christmas baskets were distributed among the poor by the churches of the city and the Woman's Relief Corps. The baskets were filled with groceries, fruits and almost everything that goes to make up an ideal Christmas dinner. In order that there would be no duplicates and that each needy family might be supplied the committees of the churches of the several denominations had met with the Red Cross and secured a list of those to receive baskets.

Besides the baskets given out the Baptist church supplied toys to more than half a hundred children.

NOTABLE PAINTING FOR HIGH SCHOOL

The second of the three panels which Vesper Lincoln George, the mural painter, is executing for the McClain High School has arrived in Greenfield.

Mr. George expects to come to Greenfield in the near future to personally supervise its installation in the Study Hall, where it will occupy the space above the doors in the rear of the room. The picture is, according to the art critics of Boston, a magnificent specimen of mural decorator's art. All the Boston papers commented at length on the painting when it was exhibited there recently. This painting is nine and a half by forty feet in dimensions, and its subject is "Progress and Prosperity," the theme of the first of the three panels, was the "Apotheosis of Education." The final painting of the set, which is yet to be completed, will have for its motive "The Melting Pot."

MEETING AT BAPTIST CHURCH SUNDAY

"World Challenge to Christian Service" will be the theme upon which Rev. Kearns Preston, of Bloomingburg will talk at the Baptist Church next Sunday afternoon in the regular Sunday afternoon men's meeting.

The hour has been set for 2:30 and the services will begin promptly at that time.

There will be special music led by Secretary Fraser of the Y. M. C. A. under whose auspices the meeting will be held.

Burton, E. Stevenson, Head Of Army Library Work in France Gets Appeal.

Has Made Good in His Chosen Work.

Paris, December 4.—(By Associated Press)—(By Mail)—Library work among the American soldiers has caused at least two new countries, Poland and Czechoslovakia, to ask American aid in establishing and organizing their libraries.

Poland recently sent a deputation to Paris to obtain information and a plan of work from Burton E. Stevenson, the European representative of the American Library Association, which handled the American army library work.

Czechoslovakia's request came to Mr. Stevenson in a letter from Dr. Alice Masaryk, sister of President Masaryk. She assured him the government would support the work and asked him to undertake reorganization of her country's libraries and especially to establish children's departments.

Burton E. Stevenson is former Librarian of Chillicothe, and a well known author, one of his best books being "Little Comrade."

Early in the war with Germany he

LICKING COUNTY FARMER, AGE 61, FEELS 21 AGAIN

Declares all the rheumatism has left his ankles, and soreness gone from his muscles.

Dreco got his stomach in fine condition by relieving gastritis and indigestion.

"I kept reading what my neighbors said about Dreco, and some of their cases fit mine exactly, so I decided to try it also says Mr. C. A. Harrison, a prosperous farmer, near Newway, Licking Co., Ohio.

"I had tried many remedies for rheumatism, but none seemed to do me any good, for mine was a pretty bad case. While I had pains all over my body, my ankles bothered me worse. They would swell up and cause intense suffering.

"My stomach got in bad shape from taking so much strong medicine for the rheumatism, and if I'd eat a good meal, I'd pay for it later with pains, gastritis, nausea, and pulled up feeling. "One day while in Columbus, I got some Dreco, and I want to say today that all the rheumatism is gone. My ankles are entirely free from pain, the stiffness has left my joints, and my muscles are no longer hard and drawn. I am 61 years old, but feel like a youngster again, thanks to the grand medicine, Dreco."

If you have been fighting stomach troubles, dyspepsia, indigestion, headaches, backache, nervousness, sleeplessness, constipation, liver and kidney trouble, catarrh, or that dreadful scourge, rheumatism, you should try the new preparation, Dreco, and you are then on the road to recovery. The action of this remedy is just as certain on the human system as that the morning follows the night. That this is proven conclusively, it is only necessary to listen to the statements of the steady stream of grateful people who daily made their statements to the Dreco Man.

All good druggists now sell Dreco, and it is highly recommended in Washington C. H. by Frank Christopher.—Advt.

was asked to take charge of the American Army Library work, and did so, to the great satisfaction of the U. S. Government and military authorities

FAYETTE FARM : BUREAU NOTES :

(By L. H. Goddard, Sec'y.)

District Meeting at Dayton—State Farm Bureau Leaders Are At Last Fully Awake.

Eight members of the Fayette County farm bureau executive committee drove to the district meeting of southwestern counties at Dayton Tuesday.

In company with more than 150 delegates from the other counties they listened to the reports of state and national farm bureau leaders and to a special report of the membership campaign in the state of Michigan by Mr. S. M. Cook of that state.

The farm bureau dues in Ohio this year, the same as in Michigan, are one dollar per year. Thus far our state farm bureau has not dared to recommend that these dues be increased to more than \$5.00. The delegates assembled in this meeting recommended with but a single dissenting vote that the dues for next year be made ten dollars. A similar resolution was adopted at the district meeting at Lima last week.

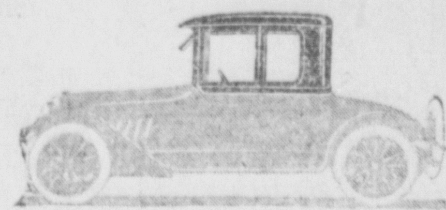

Mr. Cook told us they had discovered in Michigan that the dollar a year dues was simply a false good—as impotent as a dead horse; that in their experience low dues were simply a joke—a nice little toy machine to play with but of no use when it came to delivering the goods.

An interesting feature was the ease with which members at ten dollars per year are secured. For example, in a certain county the leaders there said "At ten dollars per year you cannot get over five per cent of our farmers.
